**ROBOT TO AID SURVIVORS**

**HELPING PEOPLE EVERYWHERE**

# The Problem

- The biggest **problem** for people after suffering a natural disaster is **food shortage**.

# The Solution

*ROBOT CHEF*

# Comparison

Robot Chef

	Min	Max
Deployed	Yes, it can be deployed	
Risk	None	
Cost	Low	

Human Chefs

Deployed	No	
Risk	High risk for human chefs to land	
Cost	Very expensive to send humans	

# Demo

1. **Drone** guided by GPS gets the robot close to the people.
2. The people **pick up the robot** and the food.
3. **Robot** is capable of **cooking** and many more tasks.

# Similar solutions

Zumepizza

San francisco, USA

Spyce

Boston, USA

- Other projects are building similar robotic solutions.
- **Our solution** is the only one that **can be deployed** in case of a **natural disaster**.

# Team

Ruben Miranda

5 years of experience  
as an Engineer

Shawn Hoffman

7 years of experience  
1 startup

David Pinzon

5 years of experience  
3 marketing startups

Sumanth Tadepelli

6 years of experience  
as Data Scientist

# KPI'S

Software and  
hardware ready

6.000  
interested users

Already tested in  
Europe

# Road map

**2019**

**2020**

**2021**

Completed

In progress

Design and prototype  
**2019**

Mass production  
**2020**

Official Launch  
**2021**

- In 2 years our project will be feeding survivors of natural disasters from all across the world.

# Financing Proposition

€ 250k

Target

€ 50k

Reached

• **Technical development**  
€ 250K

- Build 5 robots
- To feed more than 8.000 survivors
- To heal more than 2.500 injured people

Distribution

# Robot to aid survivors

# Thanks!
